The operation of the information system "temir daftar", "ayollar daftari", "yoshlar daftari" implemented in order to provide social support to the population was specially studied.

**Key words.** Mahalla, reform, deputy mayor, women's activist, youth leader, "temir daftar", "ayollar daftari", "yoshlar daftari"

**Introduction.** In new Uzbekistan, attention to neighborhoods has risen to the level of state policy. During the years of independence, unprecedented changes were made in the neighborhood system in our country. The consciousness and outlook of our people have changed. President Sh. M. Mirziyoyev said "... today the neighborhood needs to emerge as a big social force. Because activists, elders who have seen a lot, our experienced intellectuals, if they want, are able to solve any problem in cooperation with the public, and guide the young people who have made a mistake." indicates responsibility.

**Analysis and methods.** A number of decrees and decisions on the reform of the neighborhood system have been adopted by our government and are being put into practice. In particular, 2022 will be declared the year of "Glorification of human value and active neighborhood", "The priorities of the state policy on the development of entrepreneurship in the neighborhood, ensuring employment of the population and reducing poverty are correct. Presidential decree on" 1, measures to fundamentally improve the system of working with youth in the neighborhood on" 2 presidential decree, "On measures to improve the system of working with family and women, neighborhood and intellectuals" 3 presidential decree.

The above-mentioned state programs, decisions and decrees serve to turn the neighborhood into a locomotive of development. The neighborhood is becoming a solid foundation of our society, an important mechanism for solving population problems.

**Results.** In order to solve the problems of the population, develop entrepreneurship, and improve the system of working with young people, the system of "mahallabay", "khonadonbay", "fuqarobay" work was introduced. This year, the positions of assistant mayor, youth leader, and women's activist were introduced. Appropriate monthly salaries have been set for each position. The tasks to be performed by the new post holders in the neighborhoods were defined.

The following are the main duties and activities of the assistant governor.

1. "household" study of socio-economic activity in the neighborhood
2. By studying the interests of unemployed people who do not have regular income, especially young people and women, directing them to vocational and entrepreneurship training centers and helping to ensure the employment of graduates to give
3. Development of family entrepreneurship of residents of the neighborhood
4. Effective organization of the use of residential plots
5. By determining the available vacancies in the neighborhood and the demand of economic entities for seasonal workers, first of all, the unemployed Placement of young people and women included in the "iron register" and "youth register" in vacant jobs and involvement in paid public works

The following are the main responsibilities of a neighborhood youth leader.

1. Forming the youth balance sheet, entering the necessary information about young people into the "Youth Register" and "Youth Portal" electronic platforms, organizing effective work with them

4. Carrying out address work with women included in the "Women's register";
5. Identifying the problems of women in a timely manner, carrying out work with women and girls who have fallen into a difficult social situation, including women with disabilities, individually and with a specific goal, to help them with socio-legal, psychological and material organization of relief work<sup>1</sup>

In addition, working with low-income women in the neighborhoods who lost their breadwinners was defined as one of the main tasks of the women's activist position. Women's activists also carry out practical work on identifying the problems of unemployed women who have the need and desire to learn social, economic, legal, psychological, support, knowledge and profession, and include them in the "Women's Register". . Creates and monitors the database on "Women's Notebook".

**Discussion.** It is an important social object in guiding the youth of the neighborhood to science and profession, providing employment to the unemployed and assisting in employment. Solving the problems of the population, developing entrepreneurship, fundamentally improving the system of working with young people, family and women's issues are important social problems of today's modern neighborhoods. ", "Youth notebook" was created.

"Temir Daftar is a database for recording, identifying, eliminating and monitoring the problems of families with poor social status and living conditions, as well as families that are under special control by sector leaders.

"Women's notebook - a database for identifying, eliminating and monitoring the problems of unemployed women who have the need and desire for social, economic, legal, psychological support, knowledge and professional learning. . Active women will carry out practical work on inclusion in this register, create a database and monitor it.

"Yoshlar-daftari" is a database for identifying, eliminating and monitoring the problems of unemployed youth who have a need and desire for social, economic, legal, psychological support, knowledge and professional learning. The above-mentioned databases significantly improve the process of solving social problems in neighborhoods.

**Conclusion.** Historically, the neighborhood has been a cradle of goodness for the young generation, a center of education, a place where customs and traditions have been formed. is important. In the society of Uzbekistan, the educational function of neighborhoods is so significant that the concepts of "neighbourhood" and "education" are often used side by side. In particular, the true meaning of the concept of education is a complex process that ensures that a person's perception of himself and his behavior is correct and unbiased. cannot be understood apart from his neighbors, neighbors, and friends. That is, the neighborhood is always aware of the behavior of citizens, the way of living of families, and can influence their behavior if necessary<sup>1</sup>. The neighborhood plays an important role in educating the young generation, raising them in the spirit of respect for customs and traditions. That is why the proverbs "Seven neighborhood parents for a child" and "Seven neighborhood parents for a child's education" are not spoken for nothing. Every citizen of the neighborhood should consider himself responsible for bringing up a good generation.

In short, the decision-maker of the neighborhood in the issues of reducing poverty, ensuring employment of the population, and unemployment, which are problems in the life of society. "Women's notebook - a database for identifying, eliminating and monitoring the problems of unemployed women who have the need and desire for social, economic, legal, psychological support, knowledge and professional learning. Active women will carry out practical work on inclusion in this register, create a database and monitor it.

"Yoshlar-daftari" is a database for identifying, eliminating and monitoring the problems of unemployed youth who have a need and desire for social, economic, legal, psychological support, knowledge and professional learning. The above-mentioned databases significantly improve the process of solving social problems in neighborhoods.
